About Advantech Certified Peripherals

Advantech Certified Peripherals, Your Ultimate Sourcing Partner, also enables the Advantech intelligent solution. With more than 30 professional procurement specialists around the world, we have a very well-organized global procurement network and logistic infrastructure. We are capable of sourcing the best price in the world, as well as delivering products to customers within the shortest time.

With a full line of products, Advantech Certified Peripherals can provide everything that you need to build a system or solution. If the item is not covered by our standard product offerings, our regional purchasing specialists can help source any part based on a customer's specified vendor and product.

In short, the ultimate goal of us is to provide customers the most efficient services, the best quality products, and the shortest shipment lead time.

Building Industrial Strength Through Reliability Engineered

Processing and Graphics (CPU & GPU)

Driving Performance with Embedded Power

Memory Modules (DRAM)

Ensuring Stability with Industrial Reliability

Data Storage Solutions (SSD & HDD)

Protecting Data with Durable Design

System Foundation (Power Supplies)

Sustaining Operations with Reliable Energy

Data Integrity and Expansion (RAID Controllers, Enclosures, Expansion Cards, Network Cards)

Safeguarding Systems with Scalable Connectivity

Integrated Software and Essential Peripherals (Software & Keyboard Mouse)

Amplifying Value with Intelligent Control

Renewable Energy and Smart Grid

Healthcare and Medical Imaging

Autonomous Vehicles and Transportation Systems

Why Industrial Peripherals Are No Longer Just Accessories but Strategic Enablers?

End-to-End Lifecycle Management for Product Stability and Value

Have a dedicated professional team that oversees the entire product lifecycle — from development and stable supply to Last Time Buy (LTB) management. With comprehensive lifecycle management, we ensure that products consistently meet market needs while providing the right strategies and support at every stage, helping customers reduce risks and create long-term value.

One-Stop Industrial Solutions

Customers can build complete and optimized IPC systems with peripherals that are pre-validated, reducing integration challenges and ensuring consistent quality.

Global Availability and Support

Advantech certified peripherals are available worldwide with regional support teams, ensuring customers receive consistent product quality and prompt assistance wherever they operate.

Customized Industrial Enhancement

From ruggedized connectors and extended temperature tolerance to specialized system validation, Advantech certified peripherals are engineered to meet the demanding needs of industrial environments.

Stable Cost Management and Risk Reduction

Through stable product design and long-term availability, Advantech certified peripherals help customers avoid unnecessary market risks, reduce frequent redesign costs, and maintain predictable system investment.

Strategic Partnership with Key Peripheral Vendors

Advantech Certified Peripherals collaborates with leading global partners such as Intel, Seagate, Western Digital, and Transcend, ensuring that every peripheral integrated into industrial systems meets the highest standards of performance and reliability.

Through these partnerships, Advantech delivers peripherals that are not only optimized for compatibility but also aligned with the latest trends in Edge AI, IoT, and cloud computing. This synergy allows customers to adopt future-ready solutions with confidence.

We see strategic partnerships as the foundation for driving innovation. Together with our peripheral partners, we transform industrial systems into intelligent, reliable, and scalable solutions that create new opportunities across industries.

Creating Reliable Value Through Strong Partnerships

- Delivering high-performance peripherals tailored for industrial environments
- Accelerating innovation with future-ready technologies such as Edge AI and IoT
- Strengthening customer trust with reliable, long-term ecosystem collaboration

Solid State Drive

- Top of the market best-selling optical drive brands
- World class electronic performance architecture
- Easy installation and user friendly operating interface
- Handles all kinds of media and formats

- Excellent read and write speeds with SATA 3.0 Gb/s interface
- High reliability and durability perfect for intensive use

Hard Drive

- Available in a broad range of capacities, cache sizes and form factors
- Latest technology with affordable prices
- Responsive, maximized performance
- Support for S.M.A.R.T. drive monitoring and reporting

- Massive capacity with the best C/P value
- Every driver extensively tested before product launch

Capture Card

- High-Resolution, Low-Latency – Real-time 2K/4K capture for industrial and medical use
- Versatile Inputs – Supports HDMI, SDI, DVI, VGA, and M.2 formats
- Embedded & FPGA-Based – Stable, long-term operation on Advantech platforms
- Wide Applications – Ideal for manufacturing, medical imaging, AGV, and AI inspection
- Scalable & Future-Proof – Modular design for evolving industrial and healthcare needs

Power Supply

- Comprehensive selection of high-efficiency power supplies
- Power supplies are fully tested by Advantech with 3-year warranty
- Quality products provided from first tier manufacturers, with enhanced components for industrial applications (Japanese capacitors + dual ball bearing fan)

- High thermal resilience, which provides full load under 50°C (some external power supplies 40°C)
- Order friendly with flexible minimum order quantity modification
